Golfers will love it !

- ✓ Tap it against the putting green and it dispenses a small ring of talcum powder to cleverly mark the position of your ball.
- ✓ Unlike coin-shaped ball markers, the talcum powder mark will never interfere with the roll of another player's putt. So no more worries!
- ✓ In addition, the talcum powder is harmless to the grass and is easily brushed away with your finger or shoe. Agronomist approved.
- ✓ Golfers can't resist playing with its switchblade-style divot repair fork.
- ✓ The removable powder cartridge can be pulled out and easily refilled with talcum powder. Each refilling will last from 4 to 6 rounds of golf.
- ✓ Comes with translucent protective cap for the powder-dispensing tip.
- ✓ The Markmaster is officially registered and approved as conforming to the rules of golf. It can even be used in PGA Tournaments.

Exceptional Promotional Advertising Investment !

- ✓ Totally unique, clever, and useful. It's that fun, fresh, new, attention-grabbing promotional marketing item that you've been waiting for.
- ✓ Repackaged into an easy-open plastic clamshell so that it looks like it just came off the shelf from the local golf pro shop. This packaging offers an immediate and highly favorable first impression impact for your logo.
- ✓ Everyone loves to show off gadgets that no-one else has. And since it is both useful and refillable, your target audience will be showing off the Markmaster and thus your imprinted logo for a long time to come.

Pocket Markmaster (Item #PM2004)

Units	50	100	250	500	1000 (3r2s)
